01 HOW IS ADVERTISING CONTENT REGULATED?

OMA members only post content that complies with various legislative restrictions and self-regulatory codes including the [*AANA Code of Ethics*](#), the [*ABAC Responsible Alcohol Marketing Code*](#) and the [*AANA Wagering Advertising Code*](#).

The OMA also has a series of self-regulatory policies, compliance with which is a requirement of membership. These policies largely reproduce the standards contained in the [*AANA Code of Ethics*](#) as well as regulate placement of advertising on Out of Home assets.

The [*AANA Code of Ethics*](#) and the [*AANA Wagering Advertising Code*](#) ensures advertising content meets community standards. The Ad Standards Community Panel considers complaints and makes determinations on whether advertising content is in breach of the codes. The Panel is composed of independent community members who make decisions based on fairness, impartiality and prevailing community standards.

The [*ABAC Responsible Alcohol Marketing Code*](#) ensures alcohol advertising is responsible and meets community expectations.

OMA members abide by all decisions made by the Panel and ABAC, meaning if an advertisement is found in breach, it is removed as soon as possible.

OMA members have close to a 100% compliance rate with the self-regulatory guidelines, and the number of [*complaints*](#) upheld by the Panel is very low.

Other industry codes which pertain to advertising content include:

- [*AANA Environmental Claims Code*](#)
- [*AANA Children's Advertising Code*](#)
- [*AANA Food and Beverages Advertising Code*](#)
- [*The Federal Chamber of Automotive Industries' Voluntary Code of Practice for Motor Vehicle Advertising*](#)
- [*The Therapeutic Goods Advertising Code*](#)
- [*ABAC Responsible Alcohol Marketing Code*](#)
- [*OMA Code of Ethics*](#)
- [*OMA Political Advertising Policy*](#)
- [*OMA Alcohol Advertising Policy*](#)
- [*OMA Health and Wellbeing Policy*](#)
- [*OMA Placement Policy*](#)

There is also legislative requirements related to content. See the [*OMA Content Manual*](#) for more information.
